

WILBUR-ELLIS®

DRY, WATER SOLUBLE BLEND OF AMMONIUM SULFATE, NONIONIC SURFACTANT, AND ANTIFOAM AGENT

PRINCIPLE FUNCTIONING AGENTS	% BY WT.
Ammonium Sulfate, carbonyl diamine, polyoxyethylene-polyoxypropylene, beta-Hydroxy-tricarboxylic acid, dimethylsiloxane.....	99.89%
Constituents Ineffective as Spray Adjuvants	<u>0.02%</u>
	100.00%

All ingredients in this product are exempt from tolerance under 40 CFR

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Harmful if absorbed through skin. May cause skin irritation. Wash thoroughly with soap and water after handling. Harmful if swallowed.

Recommend the use of Work gloves, safety goggles or glasses with side shields and brow protection.

FIRST AID

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

GENERAL INFORMATION

Bronc Plus Dry is a water soluble blend of ammonium sulfate, nonionic surfactant, and antifoam agent. Bronc Plus Dry is formulated to improve the efficacy of glyphosate-based herbicides (i.e. Roundup) and other postemergence herbicides that recommend ammonium sulfate or nitrogen solution and nonionic surfactant.

Bronc plus Dry contains a nonionic surfactant, to help increase the biological efficacy of herbicides,

Ammonium sulfate helps to reduce tank mix antagonism.

The antifoam agent in Bronc Plus Dry reduces the formation of troublesome foam. Bronc Plus Dry is micronized to aid in solubility and speed spray mixing.

STORAGE AND DISPOSAL

- 1. PROHIBITIONS:** Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.
- 2. STORAGE:** Store in original container only and keep sealed. Store in closed storage areas. Use caution when moving, opening, closing or pouring.
- 3. PESTICIDE DISPOSAL:** Improper disposal of excess spray mixtures or rinsate is a violation of Federal Law. Wastes resulting from use of this product should be disposed of through on site spray application or at an approved waste disposal facility.
- 4. CONTAINER DISPOSAL:** Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or other procedures approved by State and local authorities.

SUGGESTIONS FOR USE

Use Bronc Plus Dry at the rate of 12 lbs. per 100 gallons of spray solution.

This rate is equivalent to adding 8.5 lbs. of ammonium sulfate and 2 qts. of an 80% nonionic surfactant to 100 gallons of water.

DIRECTIONS FOR USE

Always add Bronc Plus Dry to the spray tank water as the first component of the spray tank mixture. SLOWLY pour Bronc Plus Dry into the mixing tank at the point of maximum agitation. In most cases, this is where the liquid level in the tank is at or just below the injection of the filling water. Continue filling while recirculating until all added products are thoroughly mixed into spray solution.

Screen size in nozzle or line strainers should be no finer than 50 mesh.

Maintain good agitation at all times until the contents of the tank are sprayed. If mixture is allowed to settle, thorough agitation is required to resuspend mixture before spraying is resumed. If refilling a partially full tank, take care to avoid exceeding recommended use rate for this product.

For optimum performance, the spray mixture must be used within eight hours after herbicide product is mixed with Bronc Plus Dry.

This product is intended for use with pesticides that are labeled for agricultural, forestry, right-of-way and non-cropland use.

NOT FOR AQUATIC USE.

ALWAYS READ AND FOLLOW ALL DIRECTIONS ON THIS LABEL AND THE LABEL OF THE HERBICIDE BEING USED.
